# Surgical Anatomy and OSCE/Viva Course for MRCS Part B

**Date :** 23rd & 24th April 2010

**VENUE :** Department of Anatomy, School of Biosciences, Cardiff University, Cardiff

## Comments from Candidates

*"Thankfully, I was successful at my exam. I found the course very useful for the exam."*

**Ms Mary Than, MRCS**

West Wales General Hospital

*"I have passed the MRCS Part B and the course was really helpful. I scored 75/80 for my anatomy and pathology and I owe it to the course."*

**Mr David Chan, MRCS**

University Hospital of Wales, Cardiff

*"I can tell you with great pleasure that I have passed the exam. This was my first attempt and would like to take this opportunity to thank all the staff who organised and taught on the anatomy course as it was extremely useful for the exam."*

**Mr Madhusudhan Nannaparaju, MRCS**

Rochdale Royal Infirmary

*"I passed the MRCS OSCE in May 2010. The course at Cardiff University was very helpful"*

**Mr Usman Saleem, MRCS**

Torbay Hospital, Devon

*"I was fortunate enough to pass, many thanks! The course was very well constructed and entirely appropriate for the anatomy part of the exam (although much was viva in nature 2 stations were more like a verbal spot test!)."*

**Mr Andrew Hall, MRCS**

St George's Hospital, London

*"I passed my exam with very good result. The course was useful."*

**Mr Nourdin Kadi, MRCS**  
Ninewells Hospital, Dundee

*"Yes i passed!*

*The course was very useful. It was great to practise identifying anatomical structures. I found this aspect of the exam very easy. Thanks!"*

**Ms Rachel Andrews, MRCS**  
University Hospital of Wales

*"Yes I am happy to say that I passed the part B first time. I found the course extremely helpful in focusing my revision and it helped to give an idea of what we would face in the exam."*

**Ms Helen Richards, MRCS**  
Birmingham Heartlands Hospital

*"I am glad to report that I passed the part B. I thought that the course was well organised and I have recommended it to friends. The mock OSCE on the final day was really helpful and the mark sheet helped me to focus my study in the last couple of weeks. Although very intensive, the critical care-course was pitched at the right level and I achieved around 95% in this element of the exam."*

**Ms. Johanna Wall, MRCS**  
Royal Glamorgan Hospital

*Thank goodness, I passed!*

*I actually did quite well in the exam, and I think your course was superb! I have already recommended it to several of my friends. I was extremely concerned beforehand that it was going to demoralise me by pointing out how little I knew, but in fact it really built up my confidence, particularly after the mock OSCE!*

*Thanks for a great course!*

**Mr. Vedantashankar Sarma, MRCS**  
Queen Elizabeth Hospital, Gateshead

*Thanks for your email. I was successful in passing my MRSC Part B and I thought your Anatomy Course was excellent. I have recommended it to all my colleagues who are due to sit the exam in future. I thought the course covered everything in more than enough detail. I have no suggestions other than to emphasise that all my anatomy stations started with simple questions then linked to clinical scenarios.*

*Many thanks.*

**Matthew Jefferies**  
Morrison Hospital
