

Ms Bethan Hinchey, MSc
Nurse Practitioner in Paediatric Trauma and Orthopaedics
Noah's Ark Children's Hospital for Wales, Cardiff

Ms Bethan Hinchey qualified as a staff nurse in 2000 and has since gained knowledge and skills within Paediatric Health and Trauma and Orthopaedics, working on the paediatric wards of the University Hospital of Wales, Cardiff. She worked in Trauma Clinics for 15 years prior to developing her current role as an advanced nurse practitioner for Paediatric Trauma and Orthopaedics.

Ms Hinchey studied for her Certificate in Education in 2009, and she completed her degree in nursing in 2010. She obtained an MSc in Advanced Clinical Practice in 2018 and successfully qualified as a non-medical prescriber in 2021. All of these qualifications help to support and guide her role within Paediatric Trauma and Orthopaedics and enable her to facilitate care for children and their families.

She is a member of the RCN Forum for Children and Young People, a benchmarking and educational group developed to support and lead care and standards within Paediatric Orthopaedics.

She has helped to develop the Hip Service within the University Hospital of Wales and is a point of contact for babies and their families from diagnosis through to the end of their treatment and surveillance.
